Work Skills Automotive Courses

Our Automotive courses provide practical and industry current qualifications to launch or support an exciting and fulfilling career in the automotive industry.

The AUR20920 Certificate II in Automotive Body Repair Technology prepares new employees or recognises and develops existing workers who perform repair and maintenance operations in an automotive repair industry.

What Is the Qualification About?

This qualification covers the skills and knowledge required to perform a range of basic tasks when repairing and maintaining the body of cars and other vehicles.

How Do I Do It?

AUR20920 Certificate II in Automotive Body Repair Technology is delivered through blended learning, based on face-to-face and one-on-one training with a Work Skills trainer. This may also include utilising digital learning guides, videos, the internet and the Work Skills Online Learning and Assessment System (WOLAS). The learning may comprise of all or some of these methods. It will depend on location, the pace at which the student wants to learn and employer’s requirements. This is negotiated at the Initial Checkpoint Meeting.

WOLAS is more than just e-learning. It is an industry leading platform that manages a student’s progression through each unit of competency through to completion of a qualification.

Course Duration

Workplace based	12 months – Full time 24 months – Part time
-----------------	--

Qualification Entry Requirements

There are no entry requirements for this qualification.

Work Skills Entry Requirements

- Work Skills requires the student to complete an LLN&D assessment to determine suitability for a level II qualification. There is no need to be discouraged about this as the LLN&D is a great tool to allow us to identify any extra support that the student may require.

What Needs to Be Completed?

13 units of competency are required to complete this qualification within the specific requirements as set out below:

- 5 core units
- 8 elective units within the specific requirements as set out in the tables below.

Electives can be chosen according to the requirements of the enrolling students. Please discuss this with the Work Skills team during the enrolment process.

Core Units - Mandatory
AURAEA002 Follow environmental and sustainability best practice in an automotive workplace
AURAF002 Read and respond to automotive workplace information
AURAMA001 Work effectively with others in an automotive workplace
AURASA102 Follow safe working practices in an automotive workplace
AURTTK102 Use and maintain tools and equipment in an automotive workplace
Elective Units
AURVTN003 Remove and store vehicle body components
AURVTN005 Remove and replace adhesive attached components on vehicles
AURVTP101 Remove paint from vehicle painted surfaces
AURVTN116 Repair vehicle body panels using filler
AURVTA001 Prepare vehicles for customer use
AURVTN102 Carry out non-structural vehicle panel repairs
AURVTN104 Remove, replace and align bolt-on vehicle body panels and components
AURETR125 Test, charge and replace batteries and jump-start vehicles

Delivery and Assessment

1. **Face to Face** 2. **Workplace based sessions** 3. **Workplace training**

Training and Assessment will be conducted through a combination of blended learning environments. The student will have to successfully complete both knowledge and practical assessments for each unit of competency to achieve their certificate of completion.

Delivery Locations

This program will be delivered at the student's nominated workplace or school.

Vocational Placement Requirement

No Vocational Placement is required for this course

Fee and Charges

For Fee details – refer to Fee and Charges Brochure

Recognition of Prior Learning (RPL)

If you are currently working, or have previously worked in a relevant industry, you may be eligible for Recognition of Prior Learning (RPL). RPL applies where you have workplace experience/competency that can be formally assessed against the units of competency in this course. If you wish to undertake an RPL process, please discuss with the Work Skills team.

Certificate Issuance

A certificate is issued where all 13 units have been deemed competent. A statement of attainment is issued when only some units are deemed competent and the course is not completed in full. Issuing of certificate and or statement of attainment occurs within 30 days of the last unit being deemed competent. However, this may be delayed in the event that the student has not provided a valid Unique Student Identifier (USI) or has an outstanding fee. *(Fee clause is not applicable for students enrolled under Apprenticeship/Traineeship Pathway)*

Pathways to Further Study

Upon successful completion of AUR20920 Certificate II in Automotive Body Repair Technology, the student may wish to explore further study options in the automotive sector such as but not limited to:

- AUR32120 Certificate III in Automotive Body Repair Technology

Potential Job Pathways

- Vehicle Body Repair Assistant
- Vehicle Painter Assistant
