Work Skills Automotive Courses

Our Automotive courses provide practical and industry current qualifications to launch or support an exciting and fulfilling career in the automotive industry.

The AUR32120 Certificate III in Automotive Body Repair Technology prepares new employees or recognises and develops existing workers who are repairing, maintaining and remanufacturing the body of vehicles in the automotive industry.

What Is the Qualification About?

This qualification covers the skills and knowledge required to repair and maintain the body of cars, heavy vehicles and other vehicles in the automotive industry.

How Do I Do It?

AUR32120 Certificate III in Automotive Body Repair Technology is delivered through blended learning, based on face-to-face and one-on-one training with a Work Skills trainer. This may also include utilising digital learning guides, videos, the internet and the Work Skills Online Learning and Assessment System (WOLAS). The learning may comprise of all or some of these methods. It will depend on location, the pace at which the student wants to learn and employer’s requirements. This is negotiated at the Initial Checkpoint Meeting.

WOLAS is more than just e-learning. It is an industry leading platform that manages a student’s progression through each unit of competency through to completion of a qualification.

Course Duration

Workplace based	48 months – Full time 96 months – Part time
-----------------	--

Qualification Entry Requirements

There are no entry requirements for this qualification.

Work Skills Entry Requirements

- Work Skills requires the student to complete an LLN&D assessment to determine suitability for a level III qualification. There is no need to be discouraged about this as the LLN&D is a great tool to allow us to identify any extra support that the student may require.

What Needs to Be Completed?

31 units of competency are required to complete this qualification within the specific requirements as set out below:

- 17 core units
- 14 elective units within the specific requirements as set out in the tables below.

Electives can be chosen according to the requirements of the enrolling students. Please discuss this with the Work Skills team during the enrolment process.

Core Units - Mandatory

AURASA102 Follow safe working practices in an automotive workplace

AURAEA002 Follow environmental and sustainability best practice in an automotive workplace

AURTTK102 Use and maintain tools and equipment in an automotive workplace

AURAF108 Interpret and apply automotive repair instructions

AURVTN003 Remove and store vehicle body components

AURVTN104 Remove, replace and align bolt-on vehicle body panels and components

AURETR042 Remove, refit and operate electrical components following body repair activities

AURETR125 Test, charge and replace batteries and jump-start vehicles

AURVTN116 Repair vehicle body panels using filler

AURVTW105 Carry out spot welding

AURVTN123 Repair adhesive bonded structural damage on vehicles

AURVTN135 Apply original equipment manufacturer repair procedures during vehicle repairs

AURVTW103 Carry out advanced gas metal arc welding on vehicle body sections

AURVTN120 Remove and replace major welded panels on vehicles

AURVTN022 Repair vehicle body misalignment

AURTTY001 Repair vehicle chassis, frame and associated components

AURVTN132 Inspect vehicle damage and determine repair procedures

Elective Units

AURVTA001 Prepare vehicles for customer use

AURAMA001 Work effectively with others in an automotive workplace

AURVTN005 Remove and replace adhesive attached components on vehicles

AURVTN102 Carry out non-structural vehicle panel repairs

AURAF102 Read and respond to automotive workplace information

AURVTN006 Remove and replace mechanical units during vehicle repair

AURVTN017 Repair vehicle thermoplastic body panels and components

AURVTW007 Carry out oxyacetylene thermal heating and cutting on vehicle body sections

AURVTN115 Repair vehicle body panels using metal finishing

AURVTN127 Repair vehicle aluminium body panels using filler

AURAF104 Resolve routine problems in an automotive workplace

AURVTN018 Repair and replace vehicle structural damage

AURVTN031 Carry out vehicle sectional repairs

AURVTN128 Identify and repair high strength steel vehicle components

Delivery and Assessment

1. Face to Face
2. Workplace based sessions
3. Workplace training

Training and Assessment will be conducted through a combination of blended learning environments. The student will have to successfully complete both knowledge and practical assessments for each unit of competency to achieve their certificate of completion.

Delivery Locations

This program will be delivered at the student's nominated workplace.

Vocational Placement Requirement

No Vocational Placement is required for this course.

Fee and Charges

For Fee details – refer to Fee and Charges Brochure

Recognition of Prior Learning (RPL)

If you are currently working, or have previously worked in a relevant industry, you may be eligible for Recognition of Prior Learning (RPL). RPL applies where you have workplace experience/competency that can be formally assessed against the units of competency in this course. If you wish to undertake an RPL process, please discuss with the Work Skills team.

Certificate Issuance

A certificate is issued where all 31 units have been deemed competent. A statement of attainment is issued when only some units are deemed competent and the course is not completed in full. Issuing of certificate and or statement of attainment occurs within 30 days of the last unit being deemed competent. However, this may be delayed in the event that the student has not provided a valid Unique Student Identifier (USI) or has an outstanding fee. *(NA for students enrolled under Apprenticeship/Traineeship Pathway)*

Pathways to Further Study

Upon successful completion of of AUR32120 Certificate III in Automotive Body Repair Technology, the student may wish to explore further study options in the automotive sector such as but not limited to:

- AUR40720 Certificate IV in Automotive Body Repair Technology*

*Please note Work Skills does not offer this qualification

Potential Job Pathways

- Vehicle Body Repair Technician
- Vehicle Body Restoration Technician
- Panel Beater

Additional Links:

*Successful Completion of the course may result in loss of entitlement (government subsidy) in the future.

*Work Skills will not collect more than \$1500 as pre-paid fee from the students
