SHORT COURSE
For Upskilling &
Refrigerant Handling
Licence Requirements

AUTOMOTIVE AIR CONDITIONING TRAINING

Enhance your skills and be eligible to apply for AAC02 – Refrigerant handling licence – for working on air conditioning and refrigeration equipment fitted to motor vehicle cabins. This short course offers blended face-to-face training with online theory. Training and assessment is delivered at QLD workplaces that meet onsite refrigerant gas licencing requirements.

- AURETU103 Service air conditioning systems and HVAC systems
- AURETU104 Diagnose and repair air conditioning and HVAC components

Course participants must hold a recognised Industry Qualification
